

## Course Description

This program is based on the presentation held at the Serono Symposia International Foundation event Treatment Optimisation - Taking Science in Practice that took place in Madrid, Spain, March 5-6, 2006.

### Objectives

Upon completion of this program the participant will be able to:

- Learn how important patient education is
- The importance of early diagnosis
- See how useful treatment algorithms are in helping to decide when a patient is having a sub-optimal response to a treatment
