

## Scientific Program

7:45 Registration

8:15 Welcome from SSIF

**J-D. Baki, Switzerland**

**R. Fischer, Germany**

8:20 Introduction to the conference

**Z. Shoham, Israel**

08:30 Where are we now in the understanding of endometrial stem cells?

**C. Simon, Spain**

09:00 Can Stem cells serve as a source of gametes?

**A. Marques, Spain**

09:30 Reprogramming as a new approach to obtain patient specific stem cells

**R. Ensenat-Waser, Spain**

10:00 *Coffee Break*

10:30 IVM is ready as a treatment for PCOS patients

**M. Leong, Hong Kong**

10:45 IVM is not ready as a treatment

**B. Tarlazis, Greece**

11:00 Discussion

11:10 FSH priming for IVM

**A.L. Mikkelsen, Denmark**

11:25 hCG priming for IVM

**R.C. Chian, Canada**

11:40 Discussion

11:50 The role of IVM in the preservation of fertility

**S.L. Tan, Canada**

12:05 Efficiency of IVM treatment

**R. Fadini, Italy**

12:20 Discussion

12:30 *Lunch Break*

13:30 What do we know and what is our future course?

**R. Gosden, USA**

14:00 Human oocyte cryopreservation: The slow freezing technique

**A. Borini, Italy**

14:30 Autotransplantation of frozen human ovarian tissue and follicles

**J. Donnez, Belgium**

15:00 Whole ovary cryopreservation and transplantation in sheep

**B. Salle, France**

15:30 *Coffee break*

**J. Liebermann, USA**

16:30 Freezing whole human ovaries

**P. Patrizio, USA**

16:50 Freezing/drying of spermatozoa

**J. Biggers, USA**

17:10 Freeze/drying of stem cells

**A. Arav, Israel**

17:30 Reproductive medicine in the era of the personal genome

**A. Handyside, UK**

18:05 End of the course
